

The Grinch Should Have Had a Winch

A PORTABLE WINCH !!

The Portable Winch Company is the world's leading manufacturer of portable gasoline and electric powered winches. Unlike conventional winches, these winches are compact and powerful. They are so light that they can be hand carried anywhere! Therefore, whenever you need to pull something in areas where no other equipment will go, whether it's cable, a log, big game, a vehicle, or anything else; you now have access to 1000 kg (2200 lb) single line of portable pulling power!
