

PackFish 7™

Small Pack Fishing Boat Catches Lunker Fish - No Waders or Fins Required!

Just 22 lbs. without the floorboard or 29 lbs. with the floorboard, this ultralight, ultra portable fishing boat allows any angler to get to lakes, bays, ponds and rivers that otherwise are inaccessible. The PackFish™ 7 deflates to a fraction of its inflated size and fits in its own backpack, so you can carry it anywhere there is water.

It comes with a super comfortable inflatable seat, 4 carry handles, 2 snap-in rod-holders, 2 large pouches with double zippers to hold all the little things that every angler needs. Unlike float tubes the angler does not need to wear waders and fins for maneuvering. The angler always stays high and dry. The Sea Eagle® PackFish™ 7 comes with two 5' oars that will not fall out of the oarlocks so you can fish hands-free. The built-in rod-holders hold 2 rods upright so you can row and troll at the same time. Tracking strips on the bottom allow this boat to track straight when rowing and keep the PackFish™ 7 steady when fishing. Our Pro Package includes 7 lb. wooden floor that provides a great standing and casting platform.

Molded Tracking Keels

PF7 Floorboard provides a stable standing platform. Built in 36" fish ruler for quick & easy measuring.

Exterior: 7' x 39"
 Interior: 4' 6" x 13"
