

RazorLite™ 393rl

Our Super Fast, Super Light, Super Portable Solo Travel Kayak!

The Sea Eagle RazorLite™ is the first all Drop-Stitch inflatable kayak in the world.

Drop-Stitch construction (see diagram on next page) makes possible a very narrow hull width (just 28") in relation to length. This, in combination with sharp, rigid bow and stern molds, allows this kayak to attain paddling speeds of up to 6 mph.

This solo kayak is the perfect travel kayak for trips to wilderness lakes, far away bays or island hideaways. It fits in its own backpack carry bag with the seat, paddle and pump and can even be checked in as luggage. Because of the narrow Drop-Stitch side pontoons, there is plenty of room in the cockpit for one paddler and a lot of gear.

This Patented Design features All Drop-Stitch Construction with sharp bow and stern molds for clean entry and clean exit.
