

LongBoard LB11

Standard Features

- 6" Drop-Stitch material for greatest rigidity and buoyancy
- 4" upturn at bow for surf, 2" upturn at stern
- Large removable center skeg at rear
- 2 side skegs for tracking
- Front carry handle
- D-Rings for center seat
- Large rear D-Ring for leash
- Middle fabric carry handle
- 15 PSI air pressure capacity
- Elastic cords & D-Rings at bow to stow gear
- Deluxe one-way recessed air valve
- Longer EVA blue diamond foam foot pad on top with kicktail in the rear
- 2 extra fabric layers top & bottom for greater durability and rigidity
- Backpack, repair kit & instructions

The Toughest, The Most Stable, The Most Packable iSUP In the Land

With heavy gauge top and bottom layers on both sides of the 6" Drop-Stitch material, our LB11 is tougher, more rigid and still weighs a mere 29 lbs. This double layer protection allows the LB11 to easily inflate to 15 PSI, making it an incredibly tough and rigid iSUP.

Thoughtful features on this board are the paddle pocket that holds a paddle conveniently in place, allowing the paddler to carry board and paddle with just one hand and a rear grab handle for pulling the LB11 out of the water skegs first.

The LB11 is a great choice for beginner or expert, male or female. This model is very light weight, has many great features and is extremely portable. It's a great choice to take on your holiday destinations.
