

Travel Canoe™ TC16

ALL Drop-Stitch Travel Canoe™ - Now with wood/web seats

Our popular Travel Canoe™ now comes with traditional wood/web canoe seats.

Using our patented Drop-Stitch construction technology, this is the only inflatable canoe that looks and performs like a rigid canoe.

- Unbelievably tough because Drop-Stitch construction and extra fabric layers on the floor provide great strength.
- Far safer - cannot capsize or sink because the 3 main air chambers provide inherent buoyancy.
- Fast to paddle - goes up to 5 mph with one or two paddlers - and light to carry - just 65 lbs.
- Far more stable than traditional canoes - can even be paddled standing up.
- Now with traditional wood/web seats for a more traditional canoe feeling.
- Anti-skid EVA foam diamond-deck pads on floor provide more secure footing for the canoers.
- Removable swept back skeg provides tracking on open water and can be removed for whitewater.
- Four floor drains open to drain out water when needed and close when paddling on open water.
- Can be paddled solo with one seat or tandem with 2 people & loads of gear or by 3 people.
- Packs down to a fraction of its inflated size.
- Stows in its carry bag in a car trunk or closet.
- Can be checked in as luggage on any airline.

Drop-Stitch Construction creates narrow inflatable sides and floor that can be inflated at high pressure to make a super rigid flat floor and narrow sides.

Standard Features

- NMMA Certified
- Double wall construction on floor to provide greatest possible strength, rigidity, puncture & abrasion resistance
- Unique Patented (U.S. Patent #9,452,809) all Drop-Stitch construction with rigid bow/stern molds.
- 3 one way recessed Halkey Roberts style air valves
- Removable skeg at rear to control yaw and improve speed
- 6 D-Rings to secure seats
- 4 Open & close floor drains
- Bow and stern grab handles
- Sun & saltwater resistant hull material
- Rated for up to Class IV whitewater
- Inflates to 10 psi for hard hull paddling performance
- Nylon carry bag, repair kit & printed instructions

Exterior: 16'x38"

Interior: 15'2"x25"

Thickness: 3" Side Chambers
3" Floor Chamber

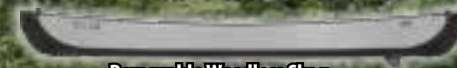

Hull Weight: 65 lbs.

Hull Material: 1000 Denier
Reinforced All Drop-Stitch Construction

Inflation: 7-9 Minutes

Weight Capacity: 3 Persons
or 915 lbs.

Deflated: 
40"x24"x16"

Removable Weedless Skeg

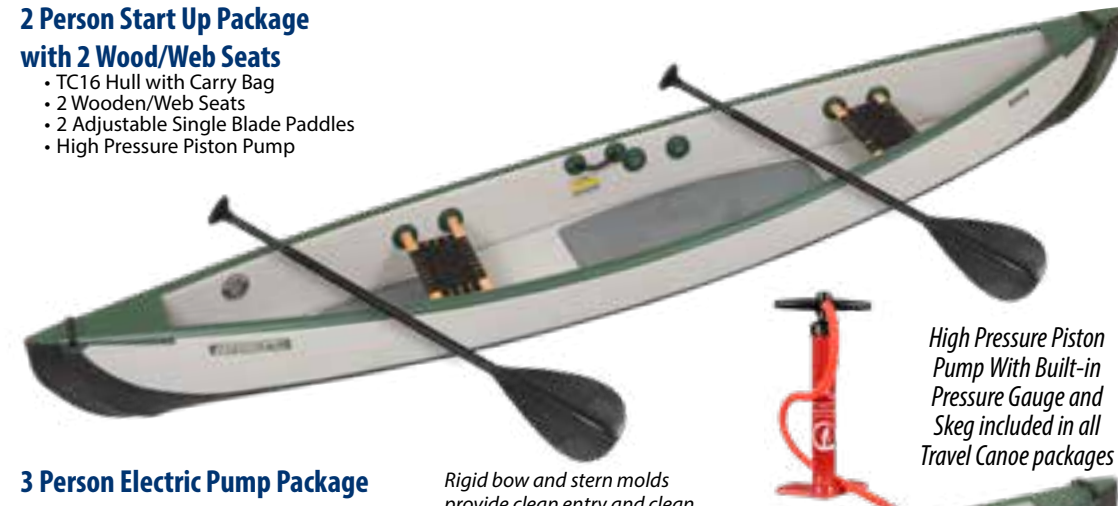

Optional Drop-Stitch
Inflatable Canoe Seat - Clips on
to D-rings on the Travel Canoe
- Just \$69.

2 Person Start Up Package with 2 Wood/Web Seats

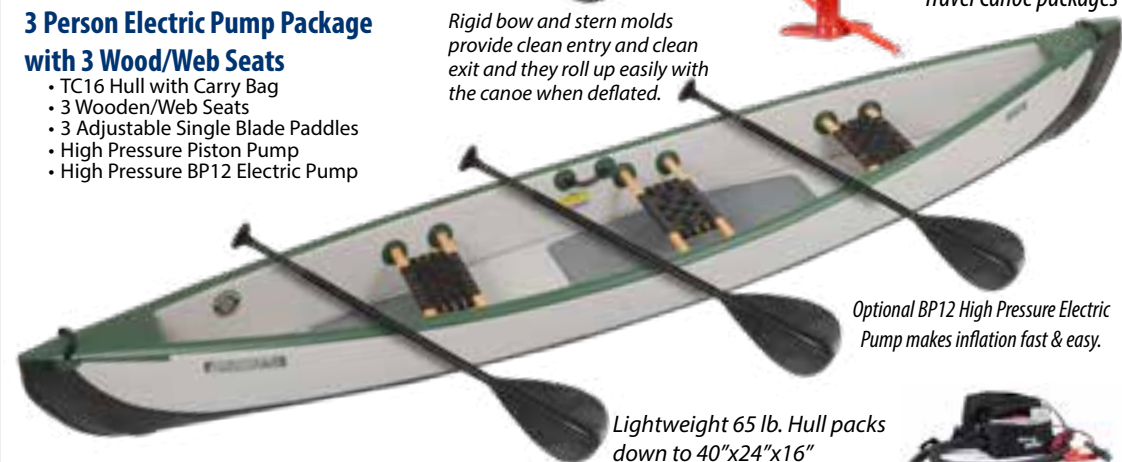

- TC16 Hull with Carry Bag
- 2 Wooden/Web Seats
- 2 Adjustable Single Blade Paddles
- High Pressure Piston Pump

High Pressure Piston Pump With Built-in Pressure Gauge and Skeg included in all Travel Canoe packages

3 Person Electric Pump Package with 3 Wood/Web Seats

- TC16 Hull with Carry Bag
- 3 Wooden/Web Seats
- 3 Adjustable Single Blade Paddles
- High Pressure Piston Pump
- High Pressure BP12 Electric Pump

Rigid bow and stern molds provide clean entry and clean exit and they roll up easily with the canoe when deflated.

Optional BP12 High Pressure Electric Pump makes inflation fast & easy.

Lightweight 65 lb. Hull packs down to 40"x24"x16"
