

Sport Runabout 14sr

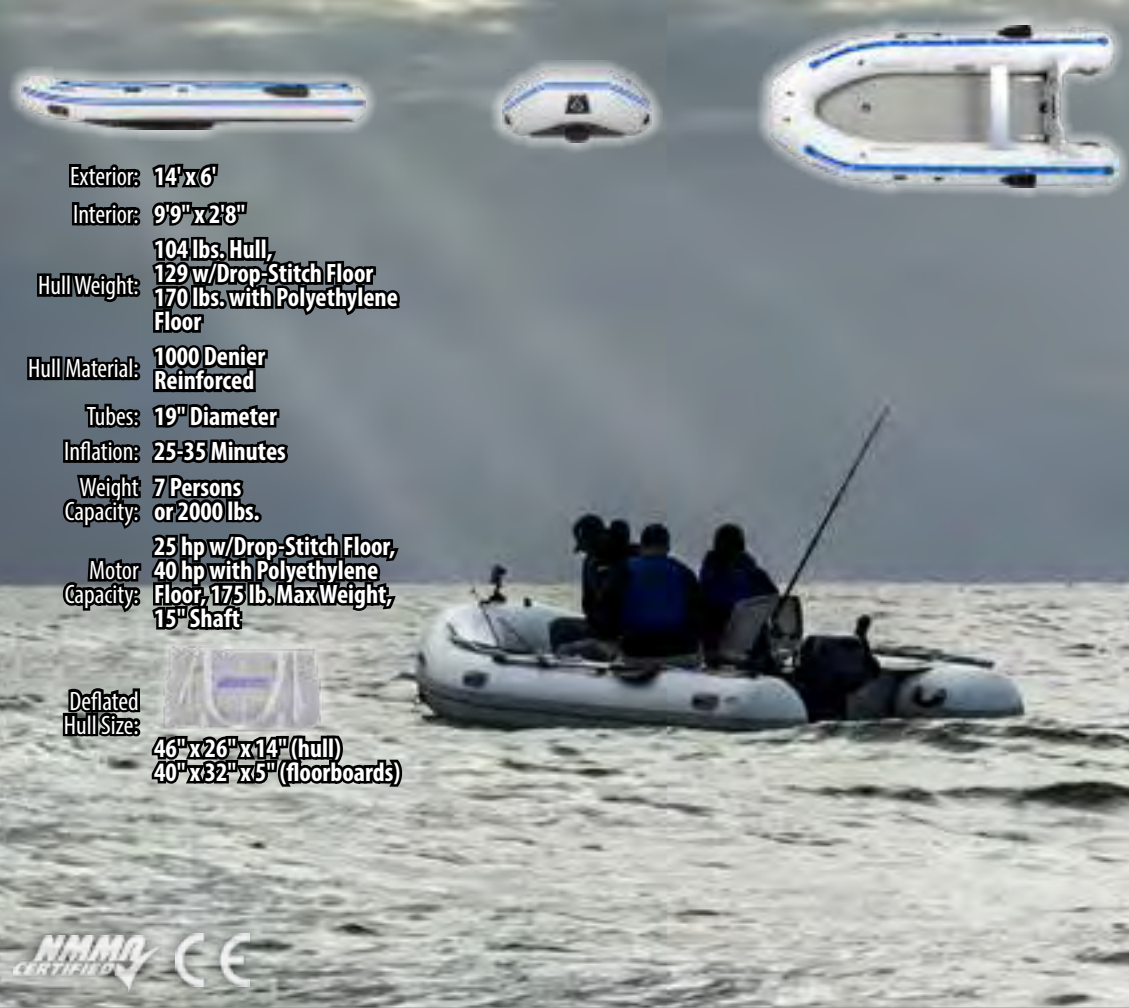

Our Boat With The Most!

Ever since using the original Sea Eagle 14sr to run around Long Island, we have been impressed with the seaworthiness and the rugged capabilities of this great size. Now that it features a wider bow with a smoother curved shape and even more flotation, we can tell you this new improved model rides even better through waves and rough seas.

Want to go offshore 15 miles, the 14sr can do it. Want to go through inlets with 8 to 10 mile currents, the 14sr can do it. Want to carry people, gas and supplies to take you a 100 miles, the 14sr can do it.

This is our largest, our most rugged, our most seaworthy transom boat. The Sea Eagle 14sr is the Queen of the Line.

- Exterior: 14'x6'
- Interior: 9'9" x 2'8"
- Hull Weight: 104 lbs. Hull, 129 w/Drop-Stitch Floor, 170 lbs. with Polyethylene Floor
- Hull Material: 1000 Denier Reinforced
