Dyna-Pro Aluminum Professional Harnesses

VEST STYLE HARNESS WITH ALL ALUMINUM HARDWARE.
INTEGRATED PAD ON SHOULDERS & LEG STRAPS.
5 POINT ADJUSTMENT.

CERTIFIED BY CSA CANADA

Dynamic Dyna-Pro Aluminum harness is designed for comfort eliminating all unnecessary weight and bulkiness in both padding and hardware. With all the hardware made out of aluminum, the overall weight of the harness is reduced by 25% and provides ultimate corrosion resistance making this harness ideal for those working in highly corrosive environments. The Dynamic back pad focuses on comfort while relieving pressure point at all the right places such as your shoulders and the back of the legs. The minimalistic pad eliminates heat zones, weight and reduces the overall bulkiness of the harness making this harness one of the most comfortable harness you will wear. It also has trauma straps on both sides to provide time in a rescue situation. These harnesses are CSA certified class ADPLE. They also meet and exceed ANSI and OSHA regulations.

Dyna-Pro Universal & Professional Harnesses

VEST STYLE HARNESS WITH INTEGRATED CUSHION ON BACK, SHOULDERS & LEG STRAPS AND 5 POINT ADJUSTMENT

CERTIFIED BY CSA CANADA

The "DYNA-PRO" line of harnesses were designed for the ultimate in ease of harness donning, with light weight breathable padding only where it is required. The "DYNA-PRO" has minimal body contact for a superior fit and comfort. Most presently available padded harnesses have padding in areas that do not add to the users comfort, in fact they actually create unnecessary hot zones. When wearing this harness the user forgets that they are wearing it even if they wear it all day long. The "DYNA-PRO" harness is the lightest in its category. It offers all the necessary cushion padding needed for maximum comfort and in no case does the padding interfere with the mobility necessary to do the job. The harness also has trauma straps on both sides to provide time in a rescue situation. It also has trauma straps on both sides to provide time in a rescue situation.

The harnesses also come with bayonet style connectors which make it easy to put on and off. Available in sizes Regular and Extra Large. These harnesses meet and exceed ANSI and OSHA regulations and is CSA Certified.

Dyna-I Universal Harnesses

VEST STYLE WITH 5 POINT ADJUSTMENT

CERTIFIED BY CSA CANADA

The vest style harnesses from DYNAMIC are made to offer comfort and ease of use. The shoulder straps and the chest strap are totally adjustable and will give you the possibility of positioning them in order to optimize your comfort. The polyester webbing gives you maximum protection against UV Rays and high resistance to most chemicals. DYNAMIC offers you a combination of leg strap connectors, D-Rings and others connectors to answer all your needs. All DYNAMIC harnesses offer a sub-pelvic strap with a sewn pattern that gives you maximum comfort. You will not feel the sewn pattern at all and you will feel like you are sitting on a cloud.

All harnesses are available in sizes Regular and Extra-Large. They also meet and exceeds the ANSI and OSHA regulations and is CSA Certified.

Dyna-Tower Harnesses

VEST STYLE HARNESS WITH INTEGRATED SHOULDER AND LEG PAD, PERMANENT ATTACHED BELT WITH LUMBAR SUPPORT AND OPTIONAL SADDLE OR WORKSEAT. ALL ALUMINUM HARDWARE.

CERTIFIED BY CSA CANADA

Dyna-Tower harness were designed specifically for the tower industry where comfort, fit and weight are very important. The intergrated breathable comfort pad is a perfect size to maximize comfort without causing unecessary heat zones. All the hardware is aluminum removing all unecessary weight which make them lighter than traditional harnesses. The Dyna-Tower harnesses have removable saddle or work seat which provides additional comfort when working at heights for longer period of times. There are two d-rings on the front for ultimate verstility when connecting to ladder systems or rescue/rope access devices. The intergrated belt provides comfort when in work positioning but is specifically designed to ensure proper load transfer from the belt to the harness to maximize the load distribution to the body. It also has trauma straps on both sides to provide time in a rescue situation. These harnesses are certified to CSA class ADPL. They also meet and exceed ANSI and OSHA regulations.

Miss Dyna Harness

TRADITIONAL X-TREND HARNESS WITH 4 POINTS OF ADJUSTMENT.

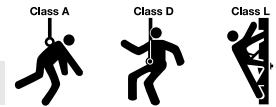

CERTIFIED BY CSA CANADA

Miss Dyna Harness provides larger range of movement than traditional H-Style harnesses. It is ideal for female workers where the H-Style harness does not fit properly around the chest. It is also optimal harness for ladder climbing as there is less slack with the front D-Ring vs H-Style harnesses. It also has trauma straps on both sides to provide time in a rescue situation. These harnesses meet and exceeds the ANSI and OSHA regulations and is CSA certified.

X-Trend Harnesses

TRADITIONAL X-TREND HARNESS WITH 4 POINTS OF ADJUSTMENT.

CERTIFIED BY CSA CANADA

Light and easy to put on "X-TREND" harness is available in two configurations. These harnesses offer the user easy adjustment, since it does not have a chest strap. The "X-TREND" harness is made out of polyester webbing, it also has a sub-pelvic strap that distributes the forces in case of a fall. Available in sizes Regular and Extra Large. These harnesses meet and exceeds the ANSI and OSHA regulations and is CSA certified.

Kevlar Harnesses

HARNESSES FOR WELDERS, ELECTRICIAN AND FOR CONFINED SPACES

CERTIFIED BY CSA CANADA

The Dyna-1FR Welders harnesses is made of Kevlar® webbing which offers the maximum protection against cuts, abrasion and high heat resistance caused by sparks and flames while giving you maximum protection in case of a fall. The Dyna1FR Electrician harness is made out of Kevlar® and offers maximum protection against cuts, abrasions and high heat due to electrical sparks or flashes. The metal components are all coated which makes the harness completely dielectric.

Available in sizes Regular and Extra Large. These harnesses meet and exceed the AANSI and OSHA regulations and ASTM F887 Arc Flash and is CSA Certified.

Dyna-I Coated Harnesses

VEST STYLE WITH 5 POINT ADJUSTMENT AND TPU COATED WEBBING FOR EXTRA DURABILITY.

CERTIFIED BY CSA CANADA

Dyna-I coated harness is protected by a TPU coating that provides resistance to abrasion, weld splatter, chemicals, paint, grease and dirt. The harness can be wiped clean with water making it easier to inspect and prolonging the life of the harness while reducing the frequency of replacement. Ideal harness for dirty environments and clean environments as well. The harness also has trauma straps on both sides to provide time in a rescue situation. These harness meet and exceeds the ANSI and OSHA regulations and is CSA certified.

SHOULDER AND LEG PAD

PART NO.	DESCRIPTION
FPUPAD	OPTIONAL SHOULDER / LEG PADDING WITH VELCRO MAKING IT EASY TO ADD TO THE HARNESS - SOLD BY PAIR

Arborist Harnesses

SUSPENSION HARNESS WITH INTEGRATED SHOULDER AND LEG PAD. PERMANENT ATTACHED BELT WITH LUMBAR SUPPORT. ALL ALUMINUM HARDWARE.

CERTIFIED BY CSA CANADA

Y-Trend harnesses were designed for rope access and rescue. The integrated breathable comfort pad is a perfect size to maximize comfort without causing unnecessary heat zones. All hardware is aluminum, making this harness one of the lightest on the market. The bottom of the Y-Trend harness has been specifically designed so that the user can suspend in the harness naturally for long periods of time while staying comfortable. The top of the Y-Trend harness has a unique configuration which makes the harness intuitive to don and eliminating the need to step into the harness and pull over like traditional harness on the market. These harnesses are CSA certified class ADPLE. They also meet and exceed ANSI and OSHA regulations.

Construction Pro Harness

VEST STYLE WITH 5 POINT ADJUSTMENT WITH INTERGRATED TOOL BELT THAT IS DESIGNED TO BREAK AWAY.

CERTIFIED BY CSA CANADA

All Aluminum hardware reducing the overall weight by 25%. Aluminum hardware also performs better in corrosive environments and is just as strong as steel. Integrated Shoulder pad optimized to reduce heat zones, bulkiness and weight and ½" wide reflective stripe for visibility in low light conditions. The tool belt is made out of stronger material that would bear the weight of heavy tool pouches with optimized comfort from a leather lumbar support. Belt design is unique as it has a "Break Away" Tool Belt feature so that in the event of a fall, the forces are not transferred to the belt causing injury to the abdominal region. It also has trauma straps on both sides to provide time in a rescue situation. These harnesses meet and exceed the ANSI and OSHA regulations and is CSA certified.

Dyna-Pak Lanyards

CERTIFIED BY CSA CANADA

This lanyard is specifically designed for fall arrest purposes for workers weighing between 60kg (132lbs) to 160kg (352lbs). With many hardware options and webbing types, it will provide you with the best option to best suit your specific application. It is very important for the user to calculate the fall clearance requirement when using a lanyard with an energy absorber. (SEE calculations on page 43)

Dyna-Yard Lanyards

CERTIFIED BY CSA CANADA

The "DYNA-YARD" Lanyard from DYNAMIC has a built in easy to use Fall Indicator/Checker system woven into the webbing, that offers a quick and simple visual check for the recommended and required pre-use inspection. Designed to reduce the impact load experienced during a fall to a maximum of 4 KN (900 lbs) or less. This lanyard meets and exceeds the ANSI and OSHA regulations and is CSA certified by CSA Canada. This lanyard is specifically designed for fall arrest purposes for workers weighing between 65kg (143lbs) to 160kg (352lbs).

Rope Grabs

CERTIFIED BY CSA CANADA

FP151/30

Our lifelines and rope grab kits are a practical solution for many fall arrest applications. Our Rope Grab is equipped with a Panic Lock feature as well as an orientation lock out feature that will not allow the rope grab to be installed upside down. All of our Vertical rope lifelines and rope grabs combinations meet and exceed ANSI, OSHA and CSA certified. This lanyard is specifically designed for fall arrest purposes for workers weighing between 60 kg (132 lbs) to 160 kg (352 lbs).

PART NO.	DESCRIPTION
FP131/30	AUTOMATIC ROPE GRAB WITH PANIC LOCK (LARGE EYE) WITH 30 IN (0.8M) DYNA-PAK E4 ENERGY ABSORBING LANYARD & (1) DOUBLE LOCKING ERGONOMIC SNAP HOOK FP6650HS
FP151/30	AUTOMATIC ROPE GRAB WITH PANIC LOCK (LARGE EYE) WITH 30 IN (0.8M) LANYARD & (1) DOUBLE LOCKING ERGONOMIC SNAP HOOK FP6650HS

FP960

FP09D

FP09R

Door / Window Anchor

PART NO.	DESCRIPTION
FP960	DOOR/WINDOW ANCHOR - PROVIDE A NON-INTRUSIVE ANCHOR POINT AND CAN BE EASILY INSTALLED INSIDE THE INTERIOR OF A BUILDING OR WINDOW OPENING ENABLING THE MOST DIFFICULT JOB TO GET DONE SAFELY. ADJUSTABLE FROM 23.62 IN TO 49.12 IN (59.05CM TO 123.02 CM). STORAGE BAG INCLUDED

Roof Brackets

PART NO.	DESCRIPTION
FP09D	DISPOSABLE ROOF ANCHOR(WITH NAILS)
FP09R	REUSABLE ROOF ANCHOR (WITH SCREWS)
FP09RF	REUSABLE FLAT ROOF ANCHOR (WITH SCREWS)

FP3001

FPWRISTLETS

FP4017B

4 Persons Temporary Rope Horizontal Lifeline

PART NO.	DESCRIPTION
FP3001	ADJUSTABLE HORIZONTAL LIFELINE THAT SPANS 5M (16FT) TO 25M (82FT), SUITABLE FOR 4 PERSONS. INCLUDES 16MM (5/8") DIAMETER KERNMANTLE ROPE, CORROSION RESISTANT TENSIONER, 4 STEEL O RINGS FOR THE USER TO EASILY ATTACH HIS LANYARD TO AND CARABINER END CONNECTIONS

Rescue and Retrieval Systems

PART NO.	DESCRIPTION
FP4017B	SPREADER BAR
FPWRISTLETS	WRISTLETS
FPTRAUST	TRAUMA STRAPS
FPWORKSEAT	WORK SEAT FOR LONG TIME WORK ON HEIGHT
FPRESCLAD	LADDER RESCUES SYSTEM WHICH INCLUDES 18 FT LADDER, ROPE AND A BELAY SYSTEM

FPWORKSEAT

FPRESCLAD

Tripods and Accessories

The DYNAMIC Tripods and tripods kits are versatile and lightweight. Made of High-strength aluminum construction with adjustable legs and independent leg locking feature which secure legs in place and spiked feet for slippery surfaces. Devices mounted on the outside to maximize work area under the tripod for work and rescue. Available in 7ft (2m) and 9ft (3m). Withstands up to 5,000 lbs. (22kN). Max worker weight capacity of 360lbs. Meets and exceed all applicable ANSI and CSA standards.

TRIPODS AND TRIPOD KITS

PART NO.	DESCRIPTION
FP09907	7 FT TRIPOD WITH TELESCOPING LEGS THAT CAN ADJUST FROM 4 FT TO 7 FT. ALUMINUM CONSTRUCTION AND STEEL FEET WITH SPIKES FOR SLIPPERY SURFACES
FP09910	9FT TRIPOD WITH TELESCOPING LEGS THAT CAN ADJUST FROM 7.5 FT TO 9 FT. ALUMINUM CONSTRUCTION AND STEEL FEET WITH SPIKES FOR SLIPPERY SURFACES
FP09907K3W	TRIPOD KIT WHICH INCLUDES FP09907 7FT TRIPOD, FP09907/1 DEVICE BRACKET, FP3NN50CR 3-WAY SELF-RETRACTING LIFELINE, AND FP1007 BAG
FP09907AK3W	TRIPOD KIT WHICH INCLUDES FP09907 7FT TRIPOD, FP09907/3 DEVICE BRACKET, FP3AA15CR 3-WAY SELF-RETRACTING LIFELINE, AND FP1007 BAG
FP09907AAK3W	TRIPOD KIT WHICH INCLUDES FP09907 7FT TRIPOD, FP09907/4 DEVICE BRACKET, FP3AA33CR 3-WAY SELF-RETRACTING LIFELINE, AND FP1007 BAG

TRIPOD DEVICES BRACKETS

PART NO.	DESCRIPTION
FP09907/1	TRIPOD DEVICE BRACKET DESIGNED FOR FP3NN50CR SELF-RETRACTING LIFELINE 3-WAY DEVICE
FP09907/2	TRIPOD DEVICE BRACKET DESIGNED FOR FP3AA33CR SELF-RETRACTING LIFELINE 3-WAY DEVICE
FP09907/3	TRIPOD DEVICE BRACKET DESIGNED FOR FP3AA15CR SELF-RETRACTING LIFELINE 3-WAY DEVICE
FP09907/4	TRIPOD DEVICE BRACKET DESIGNED FOR FP3AA33CR SELF-RETRACTING LIFELINE 3-WAY DEVICE

ACCESSORIES FOR TRIPOD

PART NO.	DESCRIPTION
FP099HDPINS	PIN FOR TRIPOD HEAD
FP099RING	TRIPOD O-RING
FP099PULLEY	TRIPOD PULLEY ASSEMBLY
FPTRIPDST7	STRAP FOR 7 FT TRIPOD
FPTRIPDST9	STRAP FOR 9 FT TRIPOD
FP099FEET	TRIPOD FEET
FP099PLPIN	PIN FOR TRIPOD HEAD PULLEY
FP099LGPIN	PIN FOR TRIPOD LEG
FP099BRPIN	PIN FOR DEVICE BRACKETS
FP099BRBOLT	BOLT FOR DEVICE BRACKETS

WINCH

Winch to be used for raising or lowering of personel or material in confined spaces. Equipped with a mounting plate that connects to the tripod. Galvanized Steel wire rope of 3/16 in dia. Maximum lifting load capacity of 300 lbs. Comes with a Snap Hook Model FP6650 as a connector.

PART NO.	DESCRIPTION
FP860	WINCH WITH GALVANISED STEEL CABLE AND SNAP HOOK, 60 FT (18 M)
FP860B	WINCH BRACKET FOR FP860

FP09907/1

FP860

FP1004	SMALL EQUIPMENT BAG FOR BASIC EQUIPMENT KIT - 11.25L X 11.375H IN
FP1005	SMALL EQUIPMENT BAG FOR SELF RETRACTING LIFELINE OR WINCH 16L X 16.5W X 9H IN
FP1006	LARGE EQUIPMENT BAG FOR HARNESS, LANYARD, ANCHORAGE CONNECTORS AND MORE 23.5L X 11.75W X 12.5H IN

STORAGE BAGS FOR TRIPODS

PART NO.	DESCRIPTION
FP1007	DURABLE ZIPPERED TRIPOD BAG. TO PROTECT YOUR TRIPOD FROM DAMAGE AND DIRT WHILE REDUCING CARRYING EFFORT FOR FP09907 TRIPOD - 58.5 X 10.625 X 12.5 IN
FP1008	DURABLE ZIPPERED TRIPOD BAG. TO PROTECT YOUR TRIPOD FROM DAMAGE AND DIRT WHILE REDUCING CARRYING EFFORT FOR FP09910 TRIPOD - 96.5 X 12 X 12.75 IN

FALL CLEARANCE CALCULATION

① Worker's D-ring is above anchorage

② Worker's D-ring is below anchorage

① $RD1 = LL + E + HDA + H + Xh + C + P$

② $RD2 = LL + E - HDA + H + Xh + C + P$

- LL = Lanyard Length
- HDA = Vertical distance from D-ring to the anchorage system at the end of the lanyard.
- RD = Required Distance for your fall arrest system.
- E = Elongation or deceleration distance - This is the elongation of the deceleration device when it's deployed.
- H = D-ring Height - This is the distance from the worker's feet to the harness dorsal D-ring.
- C = Extra Clearance or safety factor.
- Xh = System material stretch and D-ring movement
- P = Position of the body ie. standing, crouching or laying down.

Commonly used values:

E – Energy Absorber = 3.9 ft
WSRL = 3.5 ft

P – Standing = 0 ft
Crouching = 3ft
laying down = 5f

H – D-Ring height estimated to be 5 ft.

Xh – Material system stretch and D-ring movement estimated to be 1 ft.

C – Safety factor recommendation of 2 ft minimum.

Your formula can now be approximated as:

$$① RD1 = LL + E + HDA + P + 8$$

$$② RD2 = LL + E - HDA + P + 8$$

Example:

If you connect a 6ft E4 energy absorbing lanyard to an anchorage 2 ft above your back D-Ring while standing, you need a clearance of: $RD2 = 6 + 3.9 - 2 + 0 + 8 = 15.9$ ft.

If you connect a 6ft E4 energy absorbing lanyard to an anchorage 2 ft below your back D-Ring while standing, you need a clearance of: $RD1 = 6 + 3.9 + 2 + 0 + 8 = 19.9$ ft.

The items shown on our website are the items we Stock. However we have access to the full line of Safety Equipment that we can quickly special order for you. Browse this Catalog and if you want to place an order or get pricing and availability contact us at 1-800-561-3600 or email info@bapequipment.com Some Limitations May Apply.
